

2020 HAPPY HOLIDAYS

There's no better time to say

Thank you!

And to wish you a happy Holiday Season.

We are blessed with great family, friends and customers old and new that believe in our Salers Cattle. Our summer and fall have been very dry. Even with that said we had some, March born, no creep, 800 pound weaning weights on our calves. Our heifers, to have their first calves in March, were the best set we have ever raised. Very fleshy. Because of the tight margin in the cattle business, a live calf and live fat cattle to sell is where the profit is. Death loss gets right in your back pocket. Salers cattle are inheritably healthier at all elevations.

In 2021 we will be selling Private Treaty - coming 2 year old bulls, yearling bulls and replacement heifers. We grow the young bulls on hay plus 3-5 pounds of cracked corn. Our genetics have easy fleshing, low maintenance, longevity, calving ease, and easy handling. For more information and a list of the livestock for sale, contact us at 970-835-3944 or figure4cattle@gmail.com. Visit www.figure4cattleco.com for updates and www.salersusa.org - marketing - magazine - September 2020 -page 26 article on our ranch and cattle.

WISHING YOU ALL A SAFE & BETTER NEW YEAR!

Gary & Gail Volk
